

TO SUPPLY LEFTOVER FOOD TO POOR

Introduction:

Salesforce is a leading cloud-based Customer Relationship Management (CRM) platform that provides versatile tools for managing and optimizing customer relationships, sales processes, and customer service. For this project, aimed at helping supply leftover food to the poor, Salesforce serves as a comprehensive solution that can streamline processes and improve the efficiency of this charitable mission. This chapter will discuss Salesforce's core functions and how they support the goals of the project.

Project Overview:

The Food Distribution Project in Salesforce is designed to streamline the process of collecting and distributing leftover food to those in need. The project uses Salesforce objects and automation tools to manage venues (where food is collected), drop-off points (where food is distributed), tasks (for managing food pickup and delivery), volunteers, and execution details for each distribution event. Key objects in the System include Venue, Drop-Off Point, Task, Volunteer, and Execution Details. Each object captures essential data, such as venue locations, volunteer assignments, and food distribution statistics, enabling efficient tracking and coordination of the distribution process.

Overview of salesforce:

Salesforce offers a wide array of functionalities that allow organizations to manage interactions and relationships with various stakeholders, including clients, volunteers, and donors. Key modules in Salesforce include:

- **Sales Cloud:** Enhances sales process efficiency through lead tracking and management tools, ensuring effective outreach and engagement.
- **Service Cloud:** Focuses on customer service, providing tools for case management and knowledge sharing that could support the logistics of food distribution.
- **Marketing Cloud:** Automates communication and engagement, including email campaigns and analytics, helping non-profits reach out to donors and partners efficiently.

Key features supporting the project:

For the “Supply Leftover Food to the Poor” project, Salesforce can enhance operations through:

- **Data Management:** Centralized storage of donor information, distribution points, and logistical data.
- **Real-Time Reporting and Analytics:** Allows for monitoring food supply levels, analysing distribution metrics, and generating reports to improve efficiency.
- **Mobile Accessibility:** Ensures volunteers and team members can update and access information on the go, a crucial feature for field operations in food distribution.

Goals:

- ❖ **Streamline Food Collection** – Enable donors to easily register and donate leftover food.
- ❖ **Centralize Data Management** – Use Salesforce to store and manage donor, volunteer, and recipient data.
- ❖ **Optimize Logistics** – Automate routes and volunteer assignments for efficient food delivery.
- ❖ **Track and Report** – Monitor donation flows and generate reports to improve operations.
- ❖ **Enhance Communication** – Keep donors and volunteers informed through updates and alerts.
- ❖ **Ensure Food Safety** – Maintain quality standards and train volunteers in food handling.
- ❖ **Plan for Expansion** – Build a scalable system to support future growth in different regions.
- ❖ **Raise Awareness** – Use marketing tools to engage the community and attract more support.

Detailed Description of Implemented Features:

Creating Developer Account :

Creating a developer org in salesforce.

1. Go to <https://developer.salesforce.com/signup>
2. On the sign up form, enter the following details:

Build enterprise-quality apps fast to bring your ideas to life

- Build apps fast with drag and drop tools
- Customize your data model with clicks
- Go further with Apex code
- Integrate with anything using powerful APIs
- Stay protected with enterprise-grade security
- Customize UI with clicks or any leading-edge web framework

Sign up for your Salesforce Developer Edition
A full-featured copy of the Platform, for free

Complete the form to start your free trial. Our team will be in touch to help you make the most of your trial.

Company Name

1. **First name & Last name :**
2. **Email :**
3. **Role :** Developer
4. **Company :** College or Company Name
5. **Country :** India
6. **Postal Code :** pin code
7. **Username :** should be a combination of your name and company

Account Activation :

1. Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins.

Create Venue Object :

To create an object:

1. From the setup page >> Click on Object Manager >> Click on Create >> Click on Custom Object.
 - Enter the label name >> Venue
 - Plural label name >> Venues
 - Enter Record Name Label and Format
 - Record Name >> Venue Name
 - Data Type >> Text
2. Click on Allow reports and Track Field History, Allow Activities.
3. Allow search >> Save.

Create Drop-Off Point Object :

To create an object:

1. From the setup page >> Click on Object Manager >> Click on Create >> Click on Custom Object.
 - Enter the label name >> Drop-Off Point
 - Plural label name >> Drop-Off Points
 - Enter Record Name Label and Format
 - Record Name >> Drop-Off point Name
 - Data Type >> Text
2. Click on Allow reports and Track Field History, Allow Activities
3. Allow search >> Save.

Create Task Object :

To create an object:

1. From the setup page >> Click on Object Manager >> Click on Create >> Click on Custom Object.
 - Enter the label name>> Task
 - Plural label name>> Tasks
 - Enter Record Name Label and Format
 - Record Name >> Task Name
 - Data Type >> Text
2. Click on Allow reports and Track Field History,Allow Activities
3. Allow search >> Save.

Creating a Custom Tab :

To create a Tab:(Venue)

1. Go to setup page >> type Tabs in Quick Find bar >> click on tabs >> New (under custom object tab)

2. Select Object(Venue) >> Select the tab style >> Next (Add to profiles page) keep it as default >> Next (Add to Custom App) uncheck the include tab .
3. Make sure that the Append tab to users' existing personal customizations is checked.
4. Click save

Create a Lightning App :

To create a lightning app page:

1. Go to setup page >> search “app manager” in quick find >> select “app manager” >> click on New lightning App.

The screenshot displays the 'App Settings' interface in the Lightning App Builder. The left sidebar lists 'App Settings' with sub-options: 'App Details & Branding' (selected), 'App Options', 'Utility Items (Desktop Only)', 'Navigation Items', and 'User Profiles'. The main content area is titled 'App Details & Branding' and includes instructions: 'Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar.' The 'App Details' section contains three input fields: '* App Name' (filled with 'FoodConnect'), '* Developer Name' (filled with 'FoodConnect'), and 'Description' (placeholder: 'Enter a description...'). The 'App Branding' section features an 'Image' upload area with an 'Upload' button and a 'Primary Color Hex Value' field set to '#0070D2'. Below this is the 'Org Theme Options' section with a checkbox 'Use the app's image and color instead of the org's custom theme'. At the bottom, the 'App Launcher Preview' shows a blue square with the letters 'Fo' and the text 'FoodConnect'.

2. Fill the app name in app details and branding as follow
 - App Name : FoodConnect
 - Developer Name : This will auto populated
 - Image : optional (if you want to give any image you can otherwise not mandatory)
Primary color hex value : keep this default.
3. Then click Next >> (App option page) Set Navigation Style as Standard Navigation >> Next.
4. (Utility Items) keep it as default >> Next.
5. To Add Navigation Items:
 - Home
 - Venues
 - Tasks
 - Drop-off-points
 - Reports
 - Dashboards
 - Volunteers
 - Execution Details

Save & Finish

Search profiles (System administrator) in the search bar >> click on the arrow button >> save & finish.

Creation of Relationship fields in objects :

Creation of Lookup Relationship Field on Volunteer Object :

1. Go to setup >> click on Object Manager >> type object name(Volunteer) in the search bar >> click on the object.

2. Now click on “Fields & Relationships” >> New
3. Select Master Detail relationship
4. Select the related object “Drop-Off point” and click next.
5. Field Name : Drop_Off_point
6. Field label : Auto generated
7. Next >> Next >> Save.

Creation of Master Detail Relationship Field on Execution Details Objec

8. Go to setup >> click on Object Manager >> type object name(Execution Details) in the search bar >> click on the object.
9. Now click on “Fields & Relationships” >> New
 - Select Master Detail relationship
 - Select the related object “Volunteer” and click next.
 - Field Name : Volunteer
 - Field label : Auto generated
 - Next >> Next >> Save.

Creation of Lookup Relationship Field on Drop-Off Point Object :

10. Go to setup >> click on Object Manager >> type object name(Drop-Off Point) in the search bar >> click on the object.
11. Now click on “Fields & Relationships” >> New
12. Select Lookup relationship
13. Select the related object “Venue” and click next.
14. Field Name : Venue
15. Field label : Venue__c
16. Next >> Next >> Save.

Creation of Lookup Relationship Field on Task Object :

17. Go to setup>> click on Object Manager >> type object name(Task) in the search bar >> click on the object.
18. Now click on “Fields & Relationships” >> New
19. Select Lookup relationship
20. Select the related object “Venue” and click next.
21. Field Name : Sponsored By
22. Field label : Auto generated
23. Next >> Next >> Save.

Creation of Lookup Relationship Field on Task Object :

24. Go to setup>> click on Object Manager >> type object name(Task) in the search bar >> click on the object.
25. Now click on “Fields & Relationships” >> New
26. Select Lookup relationship
27. Select the related object “Drop-Off point” and click next.
28. Field Name : Drop-Off point
29. Field label : Auto generated
30. Next >> Next >> Save.

Creation of fields for the Venue object :

1. Go to setup>> click on Object Manager >> type object name(Venue) in search bar >> click on the object.
2. Now click on “Fields & Relationships” >> New
3. Select Data type as a “Email” and Click on Next
4. Fill the Above as following:
 - Field Label : Contact Email
 - Field Name : Contact Email
 - Click on required check box
 - Click on Next >> Next >> Save and new.

To create another fields in an object:

5. Go to setup >> click on Object Manager >> type object name(Venue) in search bar >> click on the object.
6. Now click on “Fields & Relationships” >> New
7. Select Data type as a “Phone” and Click on Next

8. Fill the Above as following:

- Field Label : Contact Phone
- Field Name : Contact Phone
- Click on required check box
- Click on Next >> Next >> Save and new.

To create another fields in an object :

9. Go to setup >> click on Object Manager >> type object name(Venue) in search bar >>click on the object.

10.Now click on “Fields & Relationships” >> New

11.Select Data type as a “Geolocation” and Click on Next

12.Fill the Above as following:

- Field Label : Location
- Decimal Places : 4
- Field Name : Location
- Description : Enter the Geolocation of your Venue
- Click on Next >> Next >> Save and new.

To create another fields in an object:

Go to setup >> click on Object Manager >> type object name(Venue) in search bar >> click on the object.

1. Now click on “Fields & Relationships” >> New

2. Select Data type as a “Long Text Area” and Click on Next

3. Fill the Above as following:

- Field Label : Venue Location
- Field Name : Venue_Location
- Click on Next >> Next >> Save and new.

Creation of fields for the Volunteer object :

1. Go to setup >> click on Object Manager >> type object name(Volunteer) in search bar >> click on the object.

2. Now click on “Fields & Relationships” >> New

3. Select Data type as a “Auto Number” and Click on Next

4. Fill the Above as following:

- Field Label : Volunteer ID
- Field Name : gets auto generated
- Click on required check box

- Click on Next >> Next >> Save and new.
- Click on Next >> Next >> Save and new.

To create another fields in an object:

1. Go to setup >> click on Object Manager >> type object name(Volunteer) in search bar >> click on the object.
2. Now click on “Fields & Relationships” >> New
3. Select Data type as a “Picklist” and Click on Next
4. Fill the Above as following:
 - Field Label : Gender
 - Field Name : Gender
 - Enter values, with each value separated by a new line :
 - a) Female
 - b) Male
 - Click on Next >> Next >> Save and new.

To create another fields in an object:

5. Go to setup >> click on Object Manager >> type object name(Volunteer) in search bar >> click on the object.
6. Now click on “Fields & Relationships” >> New
7. Select Data type as a “Date” and Click on Next
8. Fill the Above as following:
 - Field Label : Available On
 - Field Name : Available On
 - Click on required check box
 - Click on Next >> Next >> Save and new.

To create another fields in an object:

9. Go to setup >> click on Object Manager >> type object name(Volunteer) in search bar >> click on the object.
10. Now click on “Fields & Relationships” >> New
11. Select Data type as a “Number” and Click on Next
12. Fill the Above as following:
 - Field Label : Age
 - Field Name : Age
 - Click on required check box
 - Click on Next >> Next >> Save and new.

To create another fields in an object:

13. Go to setup >> click on Object Manager >> type object name(Volunteer) in search bar >> click on the object.
14. Now click on “Fields & Relationships” >> New
15. Select Data type as a “Email” and Click on Next
16. Fill the Above as following:
 - Field Label : Email
 - Field Name : Email
 - Click on required check box
 - Click on Next>> Next >> Save and new.

Create Flow to create a record in Venue object :

1. Go to setup >> type Flow in quick find box >> Click on the Flow and Select the New Flow.
2. Select the Screen flow. Click on create.
3. Click on the ‘+’ icon in between start and end, and click on screen element.

Create a Trigger:

1. Log into the trailhead account, navigate to the gear icon in the top right corner.
2. Click on developer console and you will be navigated to a new console window.
3. Click on the File menu in the toolbar, and click on new >> Trigger.
4. Enter the trigger name and the object to be triggered.
5. Enter Name : DropOffTrigger
 - sObject: Drop-Off Point
6. Click on Submit.

Trigger Code :

Profiles :

1. Go to setup page >> type Profiles in Quick Find bar >> click on Profiles >> click on 'S'.
2. Click on Clone beside Standard Platform User.

3. Under Clone Profile:

- Profile Name : NGOs Profile
- Then click on Save

The screenshot shows the Salesforce Setup interface. The left sidebar has a search bar with 'profile' entered and a list of items including 'Users' and 'Profiles'. The main content area is titled 'Clone Profile' and contains a form. The form has a header 'You must select an existing profile to clone from.' and a table with the following data:

Existing Profile	User License	Profile Name
Standard Platform User	Salesforce Platform	NGOs Profile

Below the table are 'Save' and 'Cancel' buttons. A red error message 'Required Information' is visible next to the 'Profile Name' field.

Creation of User1:

1. Go to setup page >> type users in Quick Find bar >> click on users>> New user.
2. In General Information give details as: (Note : create users as per your wish NGO's).

The screenshot shows the Salesforce Setup interface for the 'NGOs Profile'. The left sidebar has a search bar with 'profiles' entered and a list of items including 'Users' and 'Profiles'. The main content area is titled 'Profiles' and contains a table with the following data:

Name	User License	Description	Created By	Modified By
NGOs Profile	Salesforce Platform		Keerthi A. 11/5/2025, 5:17 AM	Keerthi A. 11/6/2025, 4:53 PM

Below the table are 'Edit', 'Clone', 'Delete', and 'View Users' buttons. The 'Page Layouts' section shows a table with the following data:

Standard Object Layouts	Global	Lead
Email Application	Global Layout [View Assignment]	Lead Layout [View Assignment]
Home Page Layout	Not Assigned [View Assignment]	Location Layout [View Assignment]

	Alternative Payment Method Layout [View Assignment]	Object Milestone Object Milestone Layout [View Assignment]

First Name : Iksha Foundation

Last Name : Iksha_Foundation

Alias : iiksh

Email : Give Your Email

Username : ikshafoundation@sb.com (give the username different)

Nickname : Auto Populated

User License : Salesforce Platform

Profile : NGOs Profile

Active : Check

The screenshot shows the Salesforce Setup interface. On the left, the 'Setup' menu is open, and 'Users' is selected under 'User Management Settings'. The main content area displays the 'User Detail' for a user named 'Iksha Foundation Iksha_Foundation'. The user is active, has the 'Salesforce Platform' license, and the 'NGOs Profile'. The 'User Detail' table lists various attributes like Name, Alias, Email, Username, Nickname, Title, Company, Department, Division, Address, Time Zone, Locale, Language, Delegated Approver, Manager, Receive Approval Request Emails, Federation ID, Role, User License, Profile, Active, Marketing User, Offline User, Knowledge User, Flow User, Service Cloud User, Site.com Contributor User, Site.com Publisher User, WDC User, Mobile Push Registrations, Data.com User Type, Accessibility Mode (Classic Only), Debug Mode, and High-Contrast Palette on Charts.

Creation of User2, User3 :

1. Create another Two Users by following steps in Activity - 1 with similar User License and Profile.
2. Give Different First Name, Last Name based on Different NGO's.

Creation of Public Group 1 :

1. Go to setup page >> type Public Groups in Quick Find bar >> click on Public Groups >> click on New.
2. Under Group Information:
 - Label : Iksha
 - Group Name : Iksha
 - Grant Access Using Hierarchies : Check
3. In Search, Select Users.

4. In Selected Members Add Iksha Foundation and System Administrator.

Creation of Public Group 2 :

1. By Following Steps in Activity 1, Create other two Public Groups for other two users.
2. After Saving this would look like this.

The screenshot shows the Salesforce Setup interface. The left sidebar contains a search bar with 'pub' and a list of setup categories: Users, Public Groups (selected), Feature Settings, Salesforce Files, Content Deliveries and Public Links, User Interface, Global Actions, Publisher Layouts, Company Settings, and Calendar Settings. The main content area is titled 'Public Groups' and includes a description: 'A public group is a set of users. It can contain individual users, other groups, the users in a particular role or territory, or the users in a role or territory plus all of the users below that role or territory in the hierarchy.' Below the description is a table of existing public groups.

Action	Label	Group Name	Created By	Created Date
Edit Del	Iksha	Iksha	A. Keerthi	11/5/2025, 5:28 AM
Edit Del	NSS	NSS	A. Keerthi	11/5/2025, 5:29 AM
Edit Del	Street_Cause	Street_Cause	A. Keerthi	11/5/2025, 5:30 AM

Creation of Report Types :

1. Go to setup page >> type Report Types in Quick Find bar >> click on Report Types >> click on Continue >> Click on New Custom Report Type.
2. In Define the Custom Report Type:
 - Primary Object : Select Venues
 - Report Type Label : Venue with DropOff with Volunteer
 - Report Type Name : Venue_with_DropOff_with_Volunteer
 - Description : Venue with DropOff with Volunteer
 - Store in Category : Select Other Reports
 - Deployment Status : Deployed
3. Click on Next
4. Near Click to relate another Object Select Drop-Off Points.
5. And also select "A" records may or may not have related "B" records.
6. Now again Near Click to relate another Object Select Volunteers.
7. Now click on Save.

- Report Name : venue and Drop Off point
- Report Unique Name : Auto Populated
- Click on Select Folder and select Custom Report, then click on Save.

Creation of Report on Volunteers with Execution Details and Tasks :

1. Go to the app(FoodConnect) >> click on the reports tab
2. Click on Custom Reports Folder and click on New Report
3. Select Report Type : Volunteers with Execution Details and Tasks.
4. Then click on Start Report.
5. In GROUP ROWS : Volunteer ID
6. In Columns : Add Volunteer : Volunteer Name, Task : Task Name, Execution Detail : Execution Detail Name, Volunteer: Owner Name, Task: Date, Task : Rating.

The screenshot shows the FoodConnect application interface. The top navigation bar includes 'Home', 'Venues', 'Tasks', 'Drop-Off Points', 'Volunteers', 'Execution Details', 'Reports' (selected), 'Dashboards', and 'Home'. The 'Reports' section is active, displaying a report titled 'Volunteer Task' with the subtitle 'Drop-Off Points with Volunteers with Execution Details'. The report is in 'Preview' mode, showing a limited number of records. The table has the following columns: Volunteer ID, Volunteer: Volunteer Name, Task: Task Name, Execution Detail Name, Volunteer: Owner Name: Full Name, Task: Date, and Task: Rating. The data rows show two tasks: Task 1 and Task 2, both executed by Iksha Foundation. The report is saved and ready to be run.

Volunteer ID	Volunteer: Volunteer Name	Task: Task Name	Execution Detail Name	Volunteer: Owner Name: Full Name	Task: Date	Task: Rating
a03dL00001QD0Nh (1)	Bhavika	Task 1	Execution 1	Iksha Foundation Iksha_Foundation	11/8/2025	4
Subtotal						
a03dL00001QD1Mz (1)	Charan	Task 2	Execution 2	Iksha Foundation Iksha_Foundation	11/8/2025	5
Subtotal						
Total (2)						

7. Now click on Save & Run.
8. Give Label as :
 - Report Name : Volunteer Task
 - Report Unique Name : Auto Populated
9. Click on Select Folder and select Custom Report, then click on Save.

Adding venue and Drop Off point Report to the Dashboard :

1. Go to the app(FoodConnect) >> click on the Dashboards tab.
2. Click on New Folder.

- Folder Label : Custom Dashboards
 - Folder Unique Name : Auto Populated
3. Open Custom Dashboards and click on New Dashboards
 4. Name : Organization Details
 5. Click on Widget and select Chart or Table
 6. In Select Report : Select venue and Drop Off point Report.
 7. Then click on select
 8. In Add Component:
 - Display As : Select Lightning Table
 - Component Theme : Select Dark (Optional)
 - Now click on save.

View Report (venue and Drop Off point)

Adding Volunteer Task Report to the Dashboard :

1. Click on Widget and select Chart or Table
2. In Select Report : Select Volunteer Task Report.
3. Then click on select
4. In Add Component:
 - Display As : Select Line Chart
 - Component Theme : Select Dark (Optional)

Creation of sharing rules :

1. Go to setup >> type Sharing Settings in quick find box >> Click on the Sharing Settings.
2. Scroll down and find Drop-Off point Sharing Rules.
3. Click on new near Drop-Off point Sharing Rules and Name it as:
 - Label : Rule 1
 - Rule Name : Rule_1
4. Select your rule type : Select Based on criteria.
5. Select which records to be shared:
 - Field : Operator : Value = Distance : less than : 15
6. Select the users to share with : Near Share WithPublic Groups : Iksha
7. Click on Save.
8. Click on new near Drop-Off point Sharing Rules and Name it as:
 - Label : Rule 2
 - Rule Name : Rule_2
9. Select your rule type : Select Based on criteria.
10. Select which records to be shared:
 - Field : Operator : Value = Distance : greater than : 15
 - Field : Operator : Value = Distance : less or equal : 30
11. Select the users to share with : Near Share With
 - Public Groups : NSS
12. Click on Save.
13. Click on new near Drop-Off point Sharing Rules and Name it as:
 - Label : Rule 3
 - Rule Name : Rule_3

15. Select which records to be shared:

Field : Operator : Value = Distance : less or equal : 50

Public Groups : Street Cause

17. Click on Save.

Creation of Home Page :

1. Go to setup >> type Lightning App Builder in quick find box >> Click on the Lightning App Builder and Select the New.
2. Select Home Page and give Label as HOME Page.
3. Select Standard Home Page.
4. Near Components search for Flow and Drag and Drop in Right Side Section..
5. On the right hand side:
 - Flow : Venue Flow
6. Near Components search for Dashboard, then Drag and Drop it in first Section.

7. Click on Save and Activation, then click on App Default, then Add Assignments.
8. Add FoodConnect App and then Save.

The screenshot displays the FoodConnect dashboard interface. At the top, there is a navigation bar with the FoodConnect logo and a search bar. Below the navigation bar, the dashboard is divided into several sections:

- Task Execution Details:** A section showing the current task execution details, including the date and time (As of 29-Mar-2024, 9:55 am) and the user (Viewing as Paila Bhargavi). It includes buttons for Open, Refresh, and Subscribe.
- Venue and Drop Off point:** A table listing venues and their corresponding drop-off points and distances.

Venue Name ↑	Drop-Off poin...	Dis...
La Royale Banquet Hall.	Shapur	5.116
La Royale Banquet Hall.	Jeedimetia	6.903
Paradise Garden Function Hall	Suraram Village	28.23
Ujwala Grand	-	-
- Volunteer Task:** A bar chart showing the record count for different volunteer IDs. The x-axis represents Volunteer ID (4 and 2) and the y-axis represents Record Count (0, 0.5, 1). The bar for Volunteer ID 4 has a record count of 1, and the bar for Volunteer ID 2 has a record count of 1.
- Venue Form:** A form for adding a new venue, including fields for Venue Name, Email, Phone, and Venue Location. A Next button is located at the bottom right of the form.

9. FoodConnect Home Page would Look Like this.

Conclusion :

By leveraging the Salesforce platform, the project successfully established a streamlined and transparent system for managing surplus food donations. Through efficient coordination with volunteers and timely delivery to beneficiaries, the project effectively addressed food insecurity while maximizing the utilization of available resources.
